

LORO-X 100 l/s* Roof drainage system
for siphonic drainage**, with clamping flange

Complete units - Series 49, Heavy-duty

Main drainage	DN 150	
Pressure flow	21114.150X	
Vertical runoff	1.095,80 €	

* at water level 60 mm

** Emergency drain with water level 75 mm on request.

Please note: For drainage systems with siphonic flow it is vital that only LORO-X pipes and fittings in the combination as indicated are used. Mixture or exchange of system parts may result in lower discharge capacities! The height of the downpipe must be a min. 4.2 m for the indicated capacity to be obtained. If roof drain and downpipe are fitted by different crews, then do follow the system setup according to the LX-specification sheet at www.loro.de.
